

# MITYVAC BRAKE BLEEDER MV6838 - With Refill Kits

The Mityvac MV6838 is the most comprehensive vacuum brake bleeding and master cylinder refill kit available. The MV6838 features our powerful MV6830 vacuum brake bleeder combined with both our MVA6836 master cylinder auto-refill kit. Everything is provided to quickly and conveniently vacuum bleed virtually every make and model of vehicle on the road.

- ✓ **Compressed air operation**
- ✓ **Maintains reservoir fluid level**
- ✓ **Evacuates up to 2 litres per minute**
- ✓ **Automatic shut off to prevent overflow**

## Features

Brake Bleeder Housing Constructed of chemical and impact resistant plastic.

Clamp-on Refill Kit uses gravity to automatically refill the master cylinder during vacuum or manual hydraulic brake or clutch bleeding / flushing.

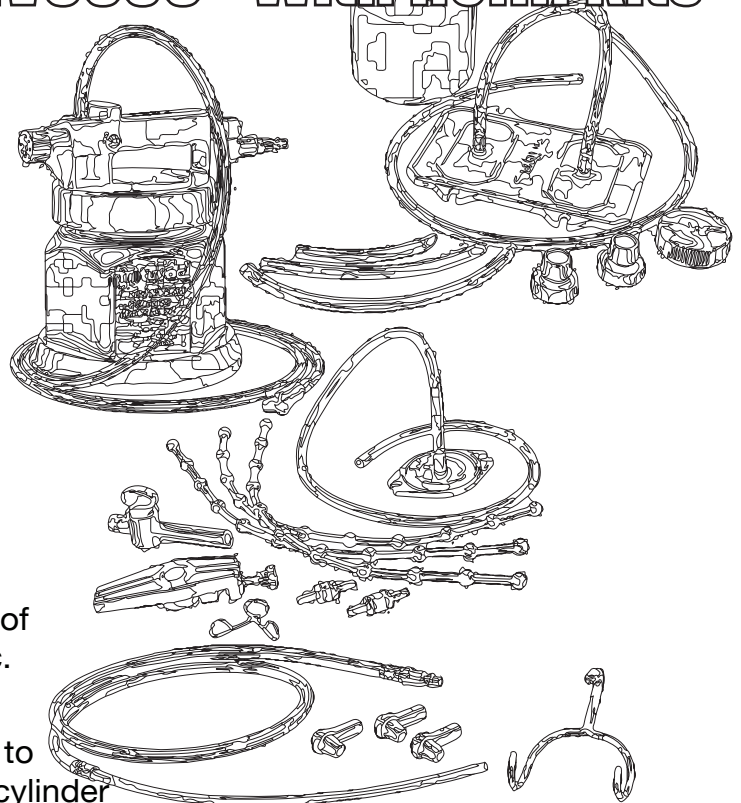

The plates included with MVA6834 significantly expand the number of applications to include dual chamber and small neck master cylinders, as well as low clearance applications.

Thumb controlled vacuum throttle to fine tune suction volume.

Quick Connect Coupling Fast and easy operation.

Swivel air inlet for tangle free operation.

The noise reducing muffler on the Mityvac MV6830 ensures quiet operation.
