

FUSE SOCKET TEST ADAPTORS

The CT6100 is a new and innovative fuse socket connector set, consisting of three connectors sizes: Mini, ATO and Maxi to cover the most common fuse socket adapters requirements in the automotive and vehicular electrical repair field.

These specially designed, plastic encapsulated connectors provide quick and reliable access to the fuse block circuits for testing voltages, currents and for tapping into the power line without damaging the fuse block or wiring in the vehicle.

Built with durable chrome-plated contact leads for wear and corrosion resistance and a specially designed ABS plastic insulating body for easy insertion and extraction

- ✓ Ergonomically molded connector for easy insertion and extraction.
- ✓ Mini, ATO (ATC) and Maxi size automotive blade fuses
- ✓ Nickel plated bronze contacts
- ✓ Standard 1/4" Quick Connects Tabs
- ✓ Insulator body molded in chemical resistant plastic
- ✓ Easy access connector tabs fit :
 - Quarter inch quick connects.
 - Alligator clips.
 - Jumper Leads.
 - Multimeter test leads.
- ✓ Warranty: 1 Year

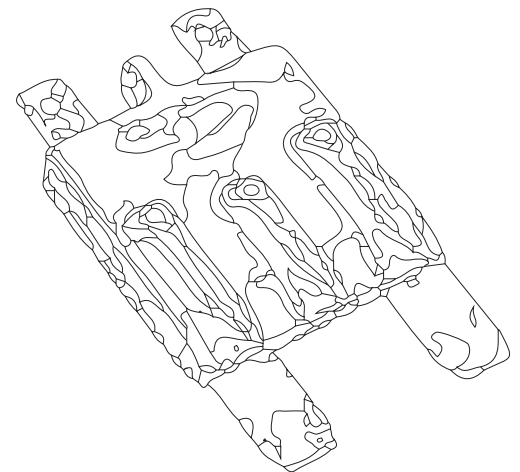

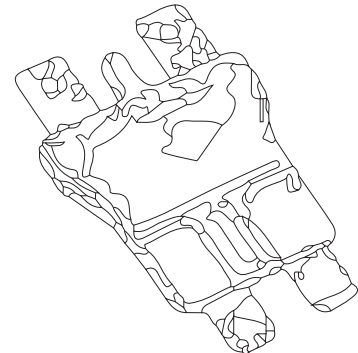

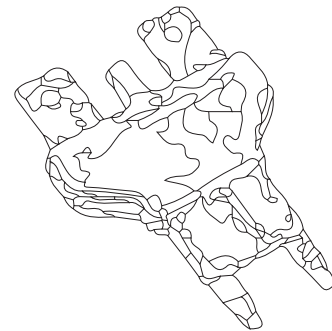

Voltage Rating: Mini: 32 VDC
Maximum Current Rating: Mini: 20 ADC

Voltage Rating: ATO/ATC: 32 VDC
Maximum Current Rating: ATO/ATC: 30 ADC

Voltage Rating: Maxi: 32 VDC
Maximum Current Rating: Maxi: 40 ADC

Kit Includes

- ✓ Mini adapter
- ✓ ATO adapter
- ✓ Maxi adapter
- ✓ Operation Instructions
