

MOUNTAIN BRAKE FLUID TESTER

The Mountain LED Brake Fluid Tester determines the brake fluid quality. Developed for professional use in automotive repair shops and as part of regular vehicle servicing. Quality is tested by measuring the moisture content of the brake fluid and provides results on the Five LEDs with percentage of moisture content.

- ✓ Easily test brake fluid quality
- ✓ Determine moisture content of brake fluid
- ✓ Battery power with auto off

Quality Construction
Manufactured from impact & chemical resistant plastic.

Easy to Read LED Contamination Percentage Results
Contamination results from OK at 0 percent to bad at 4 percent contamination.

Mountain Tools
Quality specialist Automotive Tools Supplier based in the USA.

Kit Includes

- ✓ Brake Fluid Tester
- ✓ Operation Instructions
