

# FLEXIBLE BACK PROBE PINS

Flexible 95mm silicon pins provide easy back probing connections for Multimeters and scopes

- ✓ Great for back-probing harness connectors and automotive sensors
- ✓ Flexible silicon bends for difficult areas
- ✓ Can be used up to 30 Volts

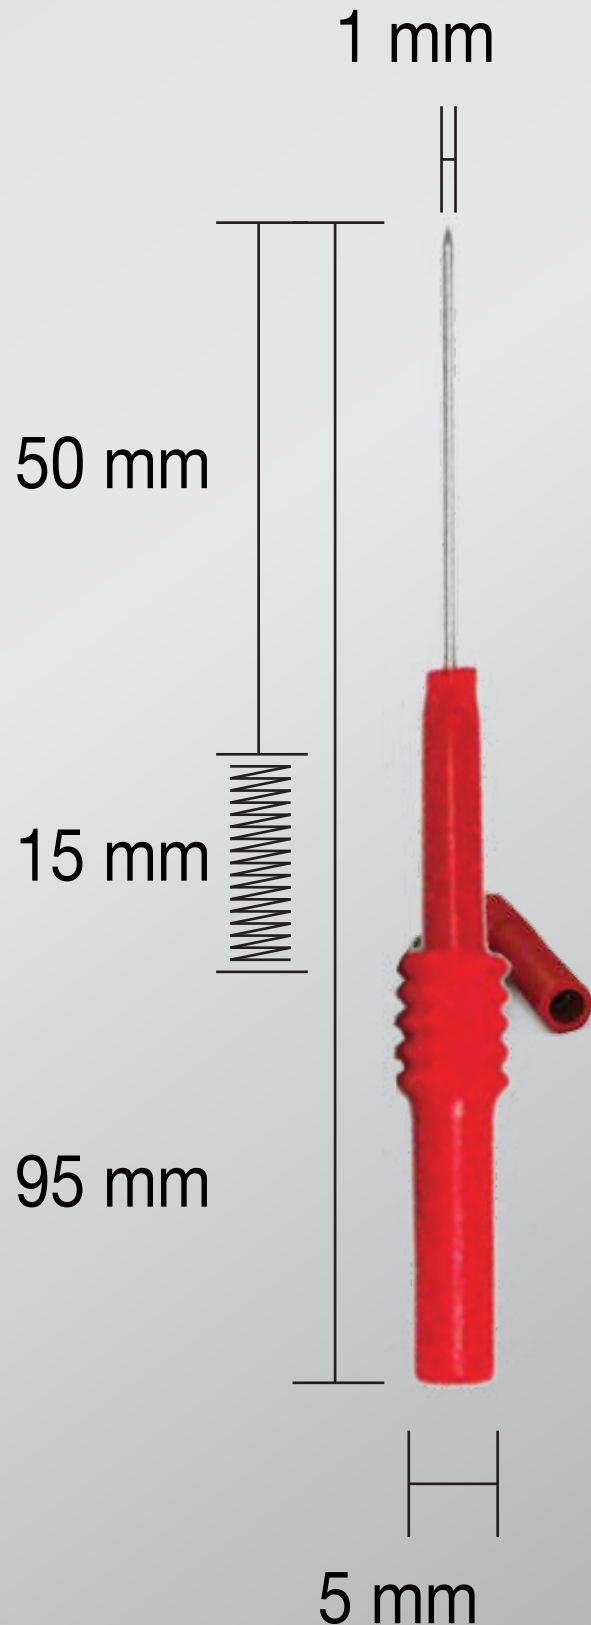

Insulated banana plug connector  
Connect directly to multimeter leads terminating in insulated banana plug connectors, also well suited for use with standard multimeter test probes

#### Kit Includes

- 1 x Red Probe
- 1 x Black Probe
