# Find Faults FAST

✓ Open Circuits

✓ Shorts to Ground

High Corrosive Resistance

- LOADpro Test Leads load the circuit to see if current can flow.
- By loading the circuit, LOADpro makes a voltage drop test "on the fly".
- Just press the switch – the test results can not lie.
- Use LOADpro w/your DMM and follow our test method - you will find wiring faults quicker.
- LOADpro Test Leads feature SteadyPin Probe Tips, which allows the probe to sit firmly on a male ECM or connector pin.
- LOADpro are OEM approved – finds corroded circuits fast!

The process is very simple - just read voltage. It's that easy, really. If a vehicle component is inoperable, just unplug the connector. Read voltage at the connector. Do you see 12 volts? If yes, press the LOADpro switch – if the voltage remains, the wiring is good – go on to something else. If the voltage drops – the circuit has high resistance... i.e.- corroded wiring or connections. If you see no voltage initially, you have an open or short to ground.

LOADpro Test Leads also feature SteadyPin Probe Tips. Instead of a pointed probe, SteadyPin tips have a small recess at the tip that allows the probe to sit firmly on a male ECM or connector pin. Traditional pointed probes fail to give an effective connection and creates difficulties in completing manufacturer specific voltmeter tests.

We recommend replacing your existing test leads with LOADpro and leave them in place.

### THE “NOT SO” SMALL PRINT

Word of mouth is our secret weapon. A large percentage of our business comes through our existing customers. So of course, we put a lot of time and effort into customer service. We think of every touchpoint with a customer as an opportunity to shine, keep existing customers happy and create a relationship that fosters growth. ...simple right?

We run a very low cost business model and pass these savings on to our customers, sure we could have a flashy building in the inner suburbs that you may visit .. one day and salesman driving around all day burning petrol, however why should you have to pay for that?

### Dispatch

All goods dispatched from OLCT 99% of the time will be the same day payment is received. In general (be it post or airbag) goods are received within 2-3 days and can be tracked online at any stage. We have 2 main distribution facilities and satellite shipping centres around the country to reduce freight costs.

### Refund Policy

OLCT is committed to providing exceptional customer service and quality products, with our dedication to customer service we hope to ensure that you make the right decision during purchase, We offer refund on purchase price only (no freight) if returned within 7 days if complete, undamaged and in original packaging
