

Specifications

- ✓ Voltage AC :
Range : 0-750V
Max Resolution : 1V
- ✓ Voltage DC :
Range : 0-1000V
Max Resolution : 1V
- ✓ Resistance :
Range : 0-200, 2000
Max Resolution : 0.1 Ohm
- ✓ Insulation Resistance :
Range : 200M, 2000M
Max Resolution : 100k
- ✓ Test Voltage :
250V-200MegOhm
500V-200MegOhm
1000V-2000MegOhm
- ✓ Continuity Test :
Audible Beep <40 Ohm
Test Current <200mA

EL001550

Kit Includes

- 550 Insulation Tester
- Battires
- Strap
- Operation Manual
- Test Leads & Earth Clamp

The 550 is used to check high voltage circuits on Hybrid cars for leaks to ground. The 550 can supply 250V, 500V and 1000V test voltages for doing complete insulation testing. You can not easily test for high voltage leakage without a high volt test source. The 550 is auto-ranging and can measure up to 2000 MegaOhm with a resolution of 1 K Ohm.
